The smart way to unlock what's next.

Progress is about making confident moves that elevate your daily experiences.

The all-new JETTA VS5 is for the driver who values progress, robust German engineering and modern design. Positioned perfectly at the intersection of everyday utility and personal reward, the VS5 is a spirited, compact SUV designed to accompany you on your journey upward.

Turn Heads. Command The Road.

Make a bold statement with the JETTA VS5's striking air-inlet grille, seamlessly integrated with star-like LED daytime running lights and dynamic LED headlamps. Crisp, aerodynamic lines flowing along the body, highlighted by black roof rails and a tilting-and-sliding glass sunroof that invites the light in.

Step inside a driver-centric cabin configured for ultimate comfort. From the premium leatherette seat trims to the leather-wrapped multi-function steering wheel, every detail feels considered; with an intelligent layout that prioritises space and storage, the VS5 keeps your passengers relaxed and your cargo secure on every journey.

Effortless Power & Exceptional Balance.

Beneath the stylish exterior, the Jetta VS5 is built on the world-renowned Volkswagen MQB platform, offering a balanced, stable and incredibly refined ride.

Powered by the Volkswagen robust 1.4-litre turbocharged EA211 engine, it delivers a spirited 110 kW of power and 250 Nm of torque. Paired with an ultra-smooth 6-speed automatic transmission, the VS5 ensures effortless city commuting and confident highway cruising. The VS5 offers a solid mechanical foundation designed to deliver reliability you can trust, kilometre after kilometre.

Perfectly integrated intuitive technology.

The JETTA VS5 command centre is designed to serve you on the move. Stay fully connected through the customisable 8-inch Digital Cockpit and the 10-inch HD touch screen, offering seamless wireless connection for both Apple CarPlay and Android Auto.

Equipped with a modern radio, convenient USB-A and USB-C connectivity and keyless access, with a push-button engine start/stop functionality; the VS5 makes every trip effortless, keeping you and your world perfectly in sync.

Peace of mind built into every journey.

Confidence behind the wheel comes from knowing you are surrounded by world-class safety. The JETTA VS5 boasts a high-strength steel body structure engineered for ultimate occupant protection.

Equipped with front and rear Park Distance Control (PDC), an integrated reverse camera system, cruise control and the Electronic Stability Program (ESP), the VS5 works quietly in the background, protecting your safety no matter what the road throws at you.

Smartly equipped. Beautifully finished.
